SKILLS

Languages:	JavaScript, TypeScript, Java, C++, C, Python
Web & Frameworks:	React.js, Node.js, Express.js, HTML5, CSS3, Vite, Tailwind CSS, REST APIs
Tools & Database:	Git, GitHub, Render, MongoDB
CS Fundamentals:	Data Structures & Algorithms, Recursion, DFS, Backtracking, OOP, DBMS, Multithreading
Soft Skills:	Time Management, Adaptability, Problem-Solving

PROJECTS

Maze Solver Java, Swing, AWT, DFS, Backtracking, Java2D GitHub	Jul' 26
- Created a Java desktop maze solver using DFS and recursive backtracking, tested on a 15×15 maze grid. - Implemented maze generation, wall editing, pathfinding animation, and live statistics including visited nodes and recursion depth. - Applied Java2D, Swing/AWT, recursion, and arrays to build a fully functional solver with real-time pathfinding animation and live performance tracking.	
Career Guidance System React.js, Node.js, Express.js, MongoDB GitHub Live Demo	Apr' 26
- Architected an AI-driven career counselling and aptitude-analysis platform on the MERN stack to help students make informed career choices, covering 12 aptitude questions across 4 assessment categories. - Engineered independent frontend and backend services for a modular, full-stack workflow with clean separation of concerns, integrating React.js, Node.js, Express.js, and MongoDB. - Designed the assessment engine to translate aptitude test results into personalized, student-specific career recommendations across 22 career options using a weighted-sum matching algorithm.	
StockSense AI JavaScript, Node.js GitHub Live Demo	Apr' 26
- Developed an AI-powered stock market sentiment-analysis chatbot built on a decoupled client-server architecture. - Structured independent client and server modules to simplify development, testing and deployment cycles. - Managed the codebase and version history end-to-end on GitHub, keeping the project organized for collaboration.	

TRAINING

Job Ready DSA Boot Camp Using Java (With LeetCode) Certificate	Jun' 26 – Jul' 26
Eduniketan Private Limited / TheEduBootCamp	
- Completed an intensive DSA boot camp in Java, solving structured problem sets on LeetCode to build strong problem-solving fundamentals. - Practiced core data-structure and algorithm patterns including arrays, recursion, and backtracking under guided instruction. - Strengthened coding efficiency and interview readiness through consistent, hands-on problem-solving practice.	

CERTIFICATES

Programming Using C++ Infosys Springboard Certificate	Aug' 25
CSR Internship – “CyberSmart Awareness” WNS Cares Foundation Certificate	Aug' 25
CODE STORM 36-Hour Hackathon Spirit Organisation × Microsoft Student Ambassadors Certificate	Jun' 25

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Aug' 24 – Present
Computer Science and Engineering; CGPA: 7.07	
Tagore Model Sen Sec School	Rehan, Himachal Pradesh
Intermediate Percentage: 88%	Apr' 22 – Jun' 24
Tagore Model Sen Sec School	Rehan, Himachal Pradesh
Matriculation Percentage: 89%	Apr' 21 – Mar' 22
